MessenPass v1.08 - Recover Lost Instant Messenger Passwords

Copyright (c) 2004 - 2006 Nir Sofer

Description

MessenPass is a password recovery tool that reveals the passwords of the following instant messenger applications:

- MSN Messenger
- Windows Messenger (In Windows XP)
- Yahoo Messenger (Versions 5.x and 6.x)
- Google Talk
- ICQ Lite 4.x/5.x/2003
- AOL Instant Messenger (only older versions, the password in newer versions of AIM cannot be recovered)
- AOL Instant Messenger/Netscape 7
- Trillian
- Miranda
- GAIM

MessenPass can only be used to recover the passwords for the current logged-on user on your local computer, and it only works if you chose the remember your password in one of the above programs. You cannot use this utility for grabbing the passwords of other users.

The screenshot shows the MessenPass application window with a menu bar (File, Edit, View, Help) and a toolbar. Below the toolbar is a table listing messenger accounts. The status bar at the bottom indicates '6 account(s), 1 Selected'.

Software	Protocol	User	Password
Miranda	Jabber	jaber12345	K8mnpj61
MSN Messenger	MSN Messenger	nhhggttf@hotmail.com	1Plki98W2
Netscape-AOL Instant Messenger	AOL Instant Messenger	aol26612	PO65TfRh
Trillian	MSN Messenger	msnh765	OiJJhygtr
Trillian	Yahoo! Messenger	yahoo123d	kjJUsce
Yahoo Messenger	Yahoo! Messenger	nirsoft821	AcGG6tyrr

Versions History

- Version 1.08 - Added support for Google Talk.
- Version 1.07 - Added support for Windows Live Messenger and for Yahoo accounts in Miranda.
- Version 1.06 - Added support for SIP and Exchange Instant Messaging accounts on Windows Messenger.
- Version 1.05 - Added support for newer versions of Miranda.
- Version 1.04 - Added support for MSN Messenger 7.5 (Multiple accounts)
- Version 1.03 - Added command-line support.
- Version 1.02 - Added support Versions 5.x of Yahoo Messenger.
- Version 1.01 - Added support for ICQ Lite 4.x/2003
- Version 1.00 - First release.

Installing MessenPass

MessenPass can be used without any installation process, simply by running the executable file (mypass.exe) from the zip file.

If you want to install MessenPass with automatic creation of program group icons and uninstall support, download and run the self-install executable file.

Using MessenPass

When you run MessenPass, it automatically detects the Instant Messenger applications installed on your computer, decrypts the passwords they store,

and displays all user name/password pairs that it found in the main window of MessenPass. If from some reason, MessenPass fails to locate the installed Instant Messenger application, you can try to manually select the right folder of your IM application by using 'Select Folders' option (from the File menu).

On the main window of MessenPass, you can select one or more password items, and then copy them to the clipboard in tab-delimited format (you can paste this format into Excel or Open-Office Spreadsheet), or save them into text/html files.

Command-Line Options

You can also save the passwords of your Instant Messenger applications without displaying any user interface, by using the following command-line options:

/stext <Filename>	Save all instant messenger passwords into a regular text file.
/stab <Filename>	Save all instant messenger passwords into a tab-delimited text file.
/stabular <Filename>	Save all instant messenger passwords into a tabular text file.
/shtml <Filename>	Save all instant messenger passwords into HTML file.
/sverhtml <Filename>	Save all instant messenger passwords into HTML file. (vertical)
/sxml <Filename>	Save all instant messenger passwords into XML file.

Translating MessenPass to other languages

MessenPass allows you to easily translate all menus, dialog-boxes, and other strings to other languages.

In order to do that, follow the instructions below:

1. Run MessenPass with /savelangfile parameter:

```
mspass.exe /savelangfile
```

A file named mspass_lng.ini will be created in the folder of MessenPass utility.
2. Open the created language file in Notepad or in any other text editor.
3. Translate all menus, dialog-boxes, and string entries to the desired language.
4. After you finish the translation, Run MessenPass, and all translated strings will be loaded from the language file.
If you want to run MessenPass without the translation, simply rename the language file, or move it to another folder.

License

This utility is released as freeware. You are allowed to freely distribute this utility via floppy disk, CD-ROM, Internet, or in any other way, as long as you don't charge anything for this. If you distribute this utility, you must include all files in the distribution package, without any modification !

Disclaimer

Feedback

If you have any problem, suggestion, comment, or you found a bug in my utility, you can send a message to nirsofer@yahoo.com

[Download MessenPass in zip file \(mypass.zip\)](#)

[Download self-install executable for installing MessenPass with uninstall support](#)

MessenPass is also available in other languages. In order to change the language of MessenPass, download the appropriate language zip file, extract the 'mypass_lng.ini', and put it in the same folder that you installed MessenPass utility.
